NEW STATE JOB ONLINE APPLICATION SYSTEM COMING SOON

The state of Montana will launch a new online application system in late December. The new system offers many features that will make it easier for you to apply for state jobs and manage your applications, including:

-a shorter application process;
-a resume uploading and parsing feature;
-the ability to track your applications as they move through the selection process; and
-easy to use job search features.

Application materials you may have saved in our current system will not transfer into the new system. You will be able to continue to access old applications through Montana ePass. Please note ePass automatically deletes applications after six months of inactivity. If you wish to retain previous applications we encourage you to continue to log into ePass regularly or to copy and save any information you may want from our current system. Please don't hesitate to contact careers@mt.gov with any questions you may have about our upcoming changes.
